Good Day Doctor Greer (et. al.). Some more background for your information and situational awareness.

The matter I was involved with back in about 2002-2005, involved alleged criminal activity within the Objective Force Task Force (OFTF).

I was assigned to a FBI Combined Joint Task Force (CJTF) designed to investigate allegations of criminal conduct and other matters related to the Aerospace and Defense Industry. This was the first time I learned of the OFTF or the allegations related to the OFTF. This was also the first I learned of SAPs, USAPs and SAR allegations I was investigating.

During the investigation, once the main suspect (three Star Lieutenant General) was relieved and removed the name OFTF was changed. I have been advised the name of the task force has changed several different times. I believe it is now called the Multi Domain Task Force (MDTF).

OFTF during its heyday, was one of the Army's most high profile matters. It was designed to replace legacy Vietnam era equipment with Future Combat Systems (FCS). FCS was designed to have the best new, modern, state of the art technology for our Nations Army.

I have attached two Information Papers related to OFTF and MDTF.

Also, this link has a lot of good information.

[Preface to The Objective Force in 2015 White Paper, Final Draft \(dtic.mil\)](#)
