

██████████ – 18 USAPs and 2 others

– back of manila folder

3 of 6000 people with baseline clearance

██████████ – girlfriend

██████████

Lawton OK – ET SCIF

1980s – light grey, full cloaking system, metallic ETV

Studied

██████████ – Research Triangle Park/ _____ PhD research center

Lewis McCord? AFB Seattle

Irvine CA – near I5 and Forest Lakes - ET bodies studied underground

SDI _____ obliterates anything

Iraq war downed any craft in air over large area

Near Seoul S Korea – ET craft from 1970s

Downed - in a mountain

3 years to build _____

\$57 million in \$100 bills

Addendum to Barnes conversation: - January 16 2018

- from notes

- CID – Criminal Investigation Division
- Took girlfriend to USAP – Ft Sill
- Showing an unauthorized person
- They crash – These have been used to down ET Craft
- Say musclesshould be missles
- TS-SCI
- He was working for TMO – Technology Management Office- located in basement of Pentagon
- Given access to 16 USAPs.
- Also USAP facilities in Irvine CA
- Barnes – one of only 3 of 2500 people with baseline clearance across the USAPs.
- DOJ did not pursue case against Riggs because denied access to USAPs.

SMG conclusions:

- If in a USAP won't be prosecuted because USAP is beyond the law
- Main reason TB called SMG is was outraged that XXXX was beyond the law & DOJ not allowed access

Implications:

- No ability to correct or supervise USAPs
- Rule of law out the window
- Only enforcement is killing within USAP
- USAP – unacknowledged law unto themselves
- Illegal unacknowledged state that cannot be prosecuted

TB – had to sign dozens of NDAs lasting 70 years – way beyond his lifetime

- General's girlfriend worked for BAE systems but not cleared for USAP
- ET ship they were studying re cloaking devices was one downed/crashed near Ft. Sill
